CHIP MINIMIZER

PROVEN PROTECTION AGAINST CHIPPING PLUS LIFETIME CHIP REPAIR.

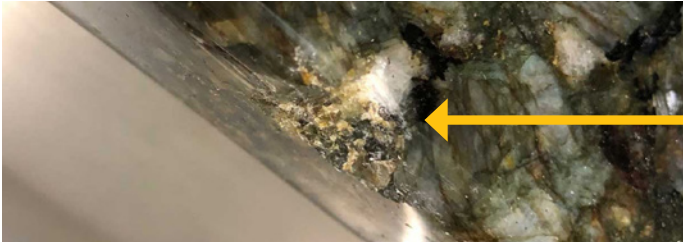

**YEARS OF WORKING WITH STONE
HAS TAUGHT US: THE BEST WAY TO
MANAGE CHIPS IS TO PREVENT THEM.**

We developed **Chip Minimizer INCLUDING** our **Lifetime Chip Repair Warranty*** to protect against chipping around your kitchen sink perimeter.

CHIP MINIMIZER

CHIP

IT STARTS WITH A ROUNDED EDGE TECHNIQUE PROVEN TO REDUCE CHIPPING.

Heavy cookware and a steady stream of dishes can make your kitchen sink perimeter particularly vulnerable to chips. Adding Chip Minimizer's rounded edge reduces chip risk and worry. Simply enjoy your beautiful new stone counter tops knowing you have the best solution in place INCLUDING a lifetime warranty for chip repairs.

YES, REPAIRS ARE INCLUDED WITH CHIP MINIMIZER.

Your purchase of Chip Minimizer includes our Lifetime Chip Repair Warranty which means the expert team at Hard Rock Stone Works will work to repair chips around your kitchen sink perimeter FOR LIFE. When you consider that just one chip repair can cost \$200-\$250 per incident, the value of Chip Minimizer is clear.

Purchase Chip Minimizer when you order your stone. Don't delay! When you've decided on your stone, let your Stone Specialist know you'd like to add Chip Minimizer. This timing is important because Chip Minimizer can't be added after the templating stage (Step 5 in our RockSolid Process).

*The Lifetime Chip Repair Warranty is specifically for repairs, not replacements. Some repairs may be visible and/or felt. Keep in mind, not all chips can be repaired. For larger chips, we'll need the broken piece(s) for the best possible repair.
