

# CUSTOM LAYOUT

SHOWCASE YOUR STONE,  
YOUR WAY.

**ONE OF THE MOST BEAUTIFUL QUALITIES** of stone such as granite, marble, quartz and quartzite is its highly distinctive patterns and color variations. With a Custom Layout, we can help you choose where your stone's most dramatic shifts in pattern and/or color will appear on your countertop.

## WHEN A CUSTOM LAYOUT IS THE RIGHT CHOICE.

A Custom Layout works best for stones with exotic colors and multi-directional patterns. Chances are if you've chosen a stone such as this you already have some thoughts about what you'd like to see. Your Hard Rock Stone Works Stone Specialist can help plan ideas. They'll also use your stone selection and countertop layout\* to determine your cost for this premium service.

## OUR PROCESS IS EXACTING.

A skilled Hard Rock Stone Works technician will work with a digital image of your exact slab and your exact countertop layout. They'll also work with your ideas and the stone's natural strengths. This first draft will be sent to you as a JPEG. At this stage, you can make changes. It's important to note that sometimes slab size or condition or even countertop specifications can preclude us from making certain changes. Just know we'll do all we can to deliver what you want.

## WITH YOUR FINAL APPROVAL, PRODUCTION BEGINS.

Before your stone is cut, we'll send your Custom Layout via email for your final approval. Please use a high-quality desktop monitor or large tablet (at least 8 inches) to view your Custom Layout. While a phone screen can also display the image, it's not optimal.

**IMPORTANT:** Please provide final approval of your Custom Layout within 24 hours. Your timely reply will ensure we can deliver your stone on time.

## STONEWORK IS BOTH ART AND SCIENCE.

In production your stone may perform differently than anticipated. Sometimes our stone artisans must act quickly and without your consent to make modifications that ensure you get the best possible layout. If this unavoidable circumstance occurs, your Custom Layout fee will be returned in full.

## CREATE A CUSTOM COUNTERTOP.

Ask your Hard Rock Stone Specialist if a Custom Layout would be right for you. They'll know the most about the stone you're considering and your unique countertop layout. Also, consider if collaborating on design specifics and preapproving a layout is important to you. Remember, we're here to help and we have the same goal: absolutely gorgeous countertops for you!

\* Hard Rock Stone Works technicians will always make every effort to create a beautiful layout. Without a Custom Layout however, you forgo collaboration and preapproval. There is also no compensation for dissatisfaction with your countertop layout.
